Department of Computer Science
ACTIVITY REPORT - (2022- 2023)
“Guidance for Competitive Examination “

1. Type of Activity- **Student Employability Enhancement**
2. Title of Event: **Guidance for Competitive Examination**
3. Date of Event: 05-05-2023 , 06-05-2023 , 07-05-2023
4. Name of organizing Department: **COMPUTER SCIENCE**
5. Names of Coordinators: Ms. **D.Suhasini, T.Vamshi Krishna,**
6. Names & Co-Coordinators:**Ms.P.Sowmya Sree MS.P.Veena**
7. No.of Participants: **76**
8. Exam Conducted - **YES** - The test will be half an hour through the Google Form.

EXAM-01: 05-05-2023- Student Responses

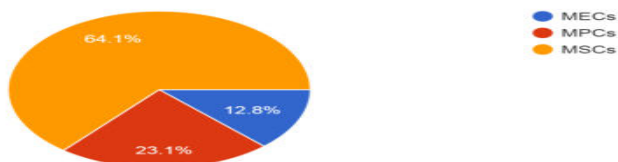

CLASS
76 responses

● MECs
● MPCs
● MSCs

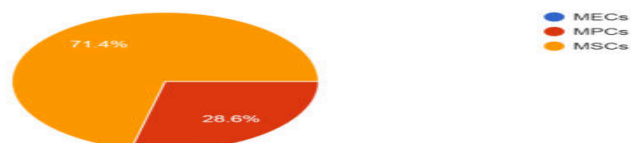

EXAM:02 - 06-05-2023 -Student Responses

CLASS
39 responses

EXAM 03 - 07-05-2023 - Student Responses

CLASS
14 responses

3. Department of Computer Science ACTIVITY REPORT - (2022- 2023) “Video Editing and Animation”

1. Type of Activity : Certificate Course
2. Title of Event :Certificate course on “Video Editing and Animation”
3. Date of Event : 22/08/2022 to 21/09/2022 (30 hrs)
4. Name of organizing Department: Computer Science in association with PRAKARA
5. Names of Conveners : D.Suhasini & T.Vamshi Krishna Reddy
6. Names of Coordinator : P.Veena, K.Vineela
7. Names & Designations of Resource Persons:Keerti Kumar Julius,Filmmaking Trainer.
8. No.of Participants: 87
9. Activity/ Program Details:

The Certificate course on “Video Editing and Animation“ is approved by the certificate course Committee. The program is organized for 50 hrs from 22/08/22 to 21/09/22. The session started with the interaction with the students. He was given Career Guidance on Video Editing & Animation, Next started the course with basics of the Introduction to Video Editing and tools used and daily at the end of the day Questionnaire session was taken.

With video editing courses, learn to use software such as Final Cut Pro, PowerDirector, or Adobe Premiere Pro to enhance visual works. Students learn techniques for manipulating footage to add structure and improve the appeal of videos and learn the craft of editing, motion graphics, VFX, text animations and other post production techniques.

10. Objectives:

- To familiarize the students with various approaches, methods and techniques of Animation Technology.

- To develop competencies and skills needed for becoming an effective Animator.
- Mastering traditional & digital tools to produce stills and moving images. Exploring different approaches in computer animation

11. Outcomes / Benefits:

- Understand the concepts and terms used to describe languages that support the imperative, functional, object-oriented, and logic programming paradigms.
- Solve problems using the functional paradigm.
- Solve problems using the object-oriented paradigm.
- Solve problems using the logic programming paradigm.

12. Projects - No

14. Certificates: YES

Output of the Course:

4.

**Department of Zoology
Activity Report-2022-23
“First AID & CPR Training “**

The Department of Zoology offering a certificate course on First Aid & CPR training in collaboration with Ravi Helios Hospital

Name of the Department: Zoology
 Date of event: 22-08-2022
 Name of the Certificate course: First AID & CPR Training
 Name of the Resource person/s: Dr. Vijay Bhaskar Bolgam, MS Ortho CEO
 Name of the collaboratives: Ravi Hellio’s Hospital
 Duration of the Course: 30 Hours
 Number of Students enrolled: 112

Report

The Department of Zoology offered a certificate course on First Aid & CPR training on collaboration with Ravi Hellio’s Hospital This course enhance the first aid skills in the students which helps in the emergency situation to save the someones life proper first aid can reduce the death risk among the citizen every day we come across the situation where due to fear & lack of first aid knowledge regarding the handling the patient situation this course inculcate the student with safety measure,First aid rules, steps involved in the First aid till the patient get proper medical examination and treatment near by hospital

**AV COLLEGE OF ARTS, SCIENCE & COMMERCE
DEPARTMENT OF ZOOLOGY
CERTIFICATE COURSE-FIRST AID & CPR TRAINING**
 Collaboration with Hellio's Hospital
 Starts from 22nd August 2022 onwards

Basic Rules First Aids

- Preserve life
- Protect Unconscious
- Promote the recovery
- Foreign body Airway obstruction
- Breathing
- Circulation
- Bleeding control
- CPR
- Burn
- Bites & Stings
- Poisoning
- Drowning

Benefits of course

- Get a Govt. Authorized Certificate
- Develop your Skill
- Expand your Knowledge
- Know how to react in an emergency situation

Register here

DO YOU KNOW? [Click here Now](#)

Up to 1,50,000 people per year could be given a chance to live if more people know first aid

Certificate course started from 15th Oct onwards

About the College:

Andhra Vidyalyaya Education Society one of the oldest and pioneering educational societies of the erstwhile Nizam's State of Hyderabad established the A.V. College of Arts, Science, and Commerce in 1968 as a multi-disciplinary college. It was established with an objective to extend educational opportunities to backward sections of the region, which were deprived of basic education during the rule of the Nizam, by stalwarts and philanthropists like Sri Raja Bahadur Venkatrama Reddy, Sri Suravaram Pratap Reddy, Sri Konda Venkata Ranga Reddy (Former Deputy Chief Minister), Sri Madapati Hanumantha Rao and Sri J.V. Narsing Rao (Former Deputy Chief Minister) who took part in the Freedom Struggle, Women's Education Movement, Library Movement and Press Movement.

The college is centrally located in the heart of Hyderabad, with Hussain Sagar Lake and the T.S. Government Secretariat in its vicinity. It has a sprawling campus of 7.33 acres. It offers nine Under Graduate Programmes and ten Postgraduate Programs. Students in the under-graduate courses of B.Sc, B.Com, B.A. have seventeen core options, nine combinations, thirty elective subjects, and five second languages. The postgraduate programs in M.B.A., M.C.A., M.Sc.(Computer Science), M.Sc. (BioTechnology), M.Sc. (Maths), M.Sc. (Physics), M.Sc. (Chemistry), M.Sc. (Applied Maths), M.A. (Telugu) and M.Com. are offered to meet the diverse needs of students to pursue higher education. The college has a student strength of approximately 3500 and attracts students not only from other states of India but also from other countries. The college has been re-accredited with 'A' grade by NAAC with a CGPA of 3.31 in 2014.

About the Department:

The department of zoology is as old as the college. It has 3 faculty members among 2 are doctorated. They are committed and dedicated to the cause of promoting the study of Zoology as a science in various specializations. The department of Zoology has been regularly organizing awareness programs, community survey,

workshops, interclass quiz, elocution, essay, mehndi, competitions, field trips, guest lecture, career guidance and also Alumni Interaction sessions will be held to enrich the knowledge and to get confident in their performance outside of the campus.

First Aid and CPR Training Certificate Course

Course Aims/Objectives

1. Saves the Lives
2. Prevention of Illness/Injury
3. Promoting recovery
4. Relieving pain
5. Protect the unconscious

Course Outcomes

1. This course is an introduction to the basic fundamentals of First Aid and CPR training. The focus of this course is to train and to enhance students awareness regarding the first aid as well as CPR.
2. It provide help to the people with the ability during emergency situation.
3. It gives you tools to prevent the situation became worse.
4. It create the confidence to care.
5. It encourage healthy & save living.
6. It can save lives.

Course Syllabus

Hrs	Chapter	30
I.	Introduction of First Aid	
II.	Exposed to Biological hazard	
III.	The Primary survey	
IV.	Basic measures of First Aid	
V.	Cardiac Arrest & the chain of survival	
VI.	Cardiopulmonary Resuscitation (CPR)	
VII.	Steps involved in CPR	
VIII.	Foreign Body Airway obstruction	
IX.	Bleeding	
X.	Fractures	
XI.	Burns	
XII.	First Aid for Bites & Stings	
XIII.	Poisoning	
XIV.	Drowning	

Practicals Labs at Ravi Helios Hospital by Dr.Vijay Bhaskar & Dr.Sridevi

Dept. of Computer Science
ACTIVITY REPORT - (2022- 2023)
“Skill Oriented Certificate Course Robotic Process Automation”

1. Type of Activity : **Skill Oriented Certificate Course**
2. Title of Event : **Certificate course on “Robotic Process Automation (RPA)”**
3. Date of Event : **12/12/2022 to 23/12/2022 (6-Days, 30 hrs)**
4. Name of organizing Department : **Computer Science** in association with **SANSAH Innovation Pvt.Ltd**
5. Names of Conveners : **D.Suhasini & T.Vamshi Krishna Reddy**
6. Names of Coordinator : **P.Sowmya Sree,K.Vineela, G.Laxmi Prasanna**
7. Names & Designations of Resource Persons: **C. Sanjay Kumar, CEO, SANSAH Innovations Pvt. Ltd.**

8. No.of Participants: **54**

9. Activity/ Program Details:

The session started with the interaction with the students. The Certificate course on “**Robotic Process Automation (RPA)**” is approved by the certificate course committee. The program is organized for 30 hrs from **12/12/2022 to 23/12/2022**. The session started with the interaction with the students. He was given Career Guidance on RPA. Next started the course with basics of the introduction to RPA and UIPATH and daily at the end of the day Questionnaire session was taken.

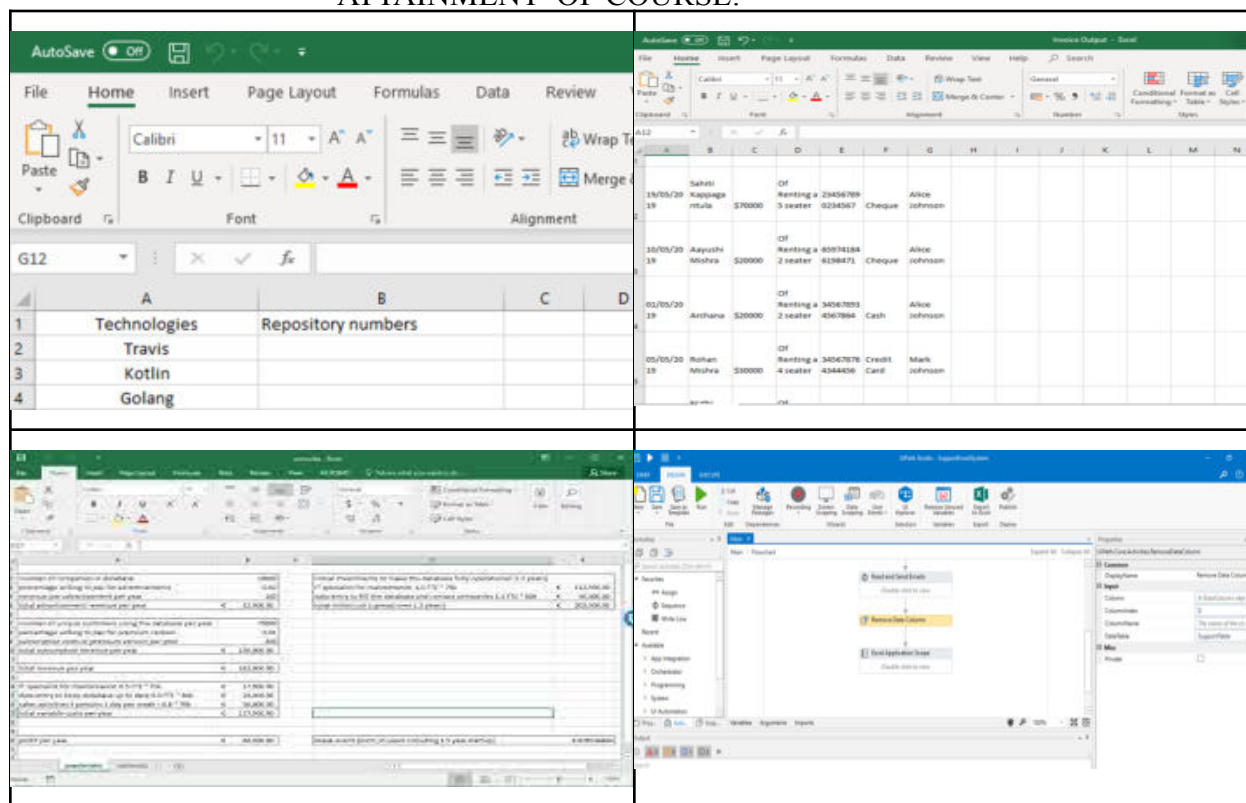

Robotic Process Automation Using UiPath course is designed to help use of the extensible UiPath RPA platform to master RPA processes and to learn the best automation practices. The course will prepare for the RPA Developer Advanced Certification exam, recognized as a premium certification in the industry. The Students form a team of five members and every team created automation of employee e bills, invoice and sorting of subjective mails.

9. Outcomes / Benefits:

- Become skillful in automating Windows, web, and Java-based applications.
- Acquire knowledge of fundamental UI automation concepts
- Gain ability to create and debug workflows using UiPath.
- Master installation of UiPath Studio on Window
- Gain ability to implement error exception handling
- Learn to organize a real-world workflow automation project

11. Projects - Mine projects

9. Activity/ Program Details:

The 4-Day Workshop organized by the Department of Computer Science in collaboration with PANTECH e Learning aimed at educating the students about Employability. It focussed on imparting skills in java programming and android and introduces a new way of thinking in the development environment and resulting in students gaining hands-on experience of the same.

Students learned how to develop androids and how to use java for effective mobile app development. “Turn raw android development into understanding, insight, and knowledge” during the course begins with developing a basic understanding of the android development working environment. Next, introduced the necessary arithmetic and logical operators, salient functions for manipulating data, and getting help using android. This course is designed for those who have no experience in android development or java programming. This workshop explores the skills in java programming and

android and introduces a new way of thinking in the development environment.

During the 4-Day training program the students learned at day1-Introduction to developing for Android. Day2- Introduction to coding in the java programming language. Day3- Setting up and working in Android Studio. Day4 - Every student created their own Mobile Apps like - Calculator, Login and Screen Saver Images.

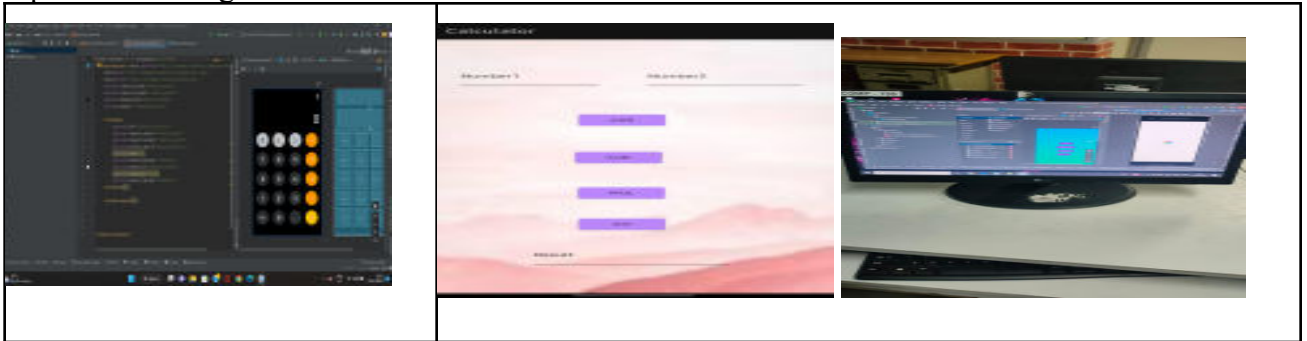

10. Objective:

- Creating robust mobile applications and learn how to integrate them with other services
- Creating intuitive, reliable mobile apps using the android services and components
- Create a seamless user interface that works with different mobile screens

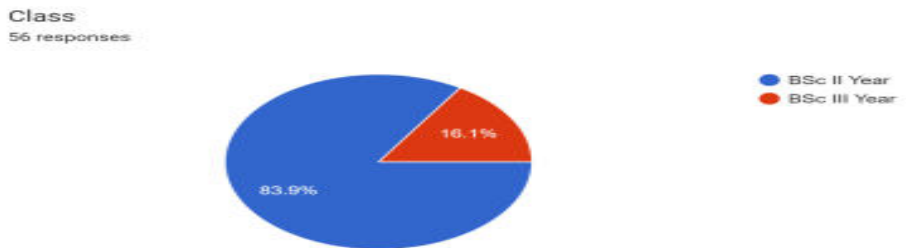

11. Outcomes:

- Students will learn how to develop androids and how to use java for effective mobile app development.
- Install and configure Android Studio.
- How to display text and images in an app
- Adding a button to an app and making it interactive

Introduction- purpose of activity:

An inherent characteristic of all food materials is their perishable nature. Some of the deteriorative changes are accompanied by the production of poisonous agents, while others result in loss of nutrients and physical loss. The principal causes of food spoilage are the growth of microorganisms and biochemical reactions catalyzed by the naturally occurring enzymes in the foods. The extent of spoilage of food materials depends on various factors like post-harvest handling practices, and temperature, humidity, and duration of storage. In a tropical country like India where the ambient temperatures can be very high in several regions, food preservation assumes greater importance in the context of the nation's food and nutritional security.

Most of the agricultural products intended as human food cannot be used directly without some processing. Processing also imparts convenience, variety and usually adds value to a food material. Therefore, in the rural areas where most of the food crops are produced, food preservation and processing will improve their nutritional status and have the potential for income generation and employment.

Basic principles of food preservation:

Man has practiced food preservation in various forms since time immemorial. In the cold regions, the low temperatures helped to prolong the storage life of perishable foods like fruits and vegetables, meat, and fish. In the hot regions, the solar energy helped to dry these foods to stable products. Salting in the case of fish and vegetables, natural fermentation as in the case of wines and vinegar are other examples of classical methods of food preservation. Many of these techniques have since been practiced and a few newer techniques were introduced subsequently.

Food preservation encompasses two major areas viz. preservation (storage) of the fresh produce and preservation by methods resulting in some modification to the fresh form (processing).

1. Preservation (Storage) of fresh produce

Fresh commodities, especially fruits and vegetables must be preserved due to their seasonal availability and highly perishable nature. A number of techniques are followed for preserving them.

- a) Treatment with anti-transpirants:
- b) Pre-Packaging
- c) Low Temperature Storage

2. Preservation of processed food product:

Several techniques are practiced preserving food products. Some of the simple techniques are described below.

- a) Preservation by adding sugar.
- b) Preservation by salt.
- c) Sun drying and dehydration.
- d) Preservation by using chemical preservatives.
 - I. Sulphur dioxide and its sodium and potassium salts (e.g., Potassium / Sodium metabisulphite)
 - II. Benzoic acid
- e) Preservation using heat.
- f) Preservation by hurdle technique.

PROCESSING: Quality control and food standards always go together and play a vital role in supplying clean, good and standard quality food products to the consumers. In the broader sense, quality control may be defined as the maintenance of the quality and composition at the levels and the tolerances acceptable to the buyer while minimizing the cost of production as far as possible. Food standards are the body of rules directly concerning the foodstuffs. These standards may be:

- a) Officials
- b) Semi- officials (Voluntary)
- c) Factory norms

Food standards required:

- a) To prevent the transmission or the cause of disease
- b) To limit the scale of unfair products.
- c) To simplify marketing of food.

In India, FSSAI (Food Safety and Standards Authority of India) government of India is enforcing the quality control of different types of food products.

10. Outcomes / Benefits:

1. Understood about small entrepreneurship in food processing and value addition.

2. Preparation and packing of various products from fruits and vegetables such as:
 - a) RTS Beverages: Mango Juice
 - b) Potato Products:
 - I. Potato Chips.
 - II. Potato padard.
 - c) Tomato Products
 - I. Pickle
 - II. Ketchup & Sauce
 - d) Dehydration of fruits and vegetables
 - e) Mixed Fruit jam
3. Preparation and packing of Multi millets food products.
 - a) Extruded product
 - b) popcorn
4. Preparation and packing of other products
 - a) Chocolate preparation
 - b) Muffins and biscuit Baking
 - c) Cake Baking.
5. Different Equipment and Machinery: Its use and working.
6. About different Chemicals and other inputs added.
7. Quality Analysis of the food product such as:
 - a) Estimation of Moisture
 - b) Estimation of Ash and Mineral matter
 - c) Estimation of Fat: Solvent extraction method.
 - d) Estimation of Nitrogen [protein]
 - e) Estimation of Crude fiber
 - f) Estimation of starch.
 - g) Analysis of a market sample consisting
 - a) Estimation of total soluble Solids: Brix
 - b) Estimation of pH Value
 - c) Triable Acidity
 - d) Estimation of salt
8. Analysis of total Carotenoids as β -Carotene in foods
9. Color and Texture Analysis of Extruded product
10. Total Polyphenol content in tomato pulp
11. Determination of Lycopene in tomato by HPLC Method: High performance liquid chromatography.
12. Moisture Sorption Isotherms.
 - a) Microbial count for quality assessment of foods.
 - b) Yeast and Molds count: spread Plate method.

“A.V Nursery Upgradation Training - Workshop”

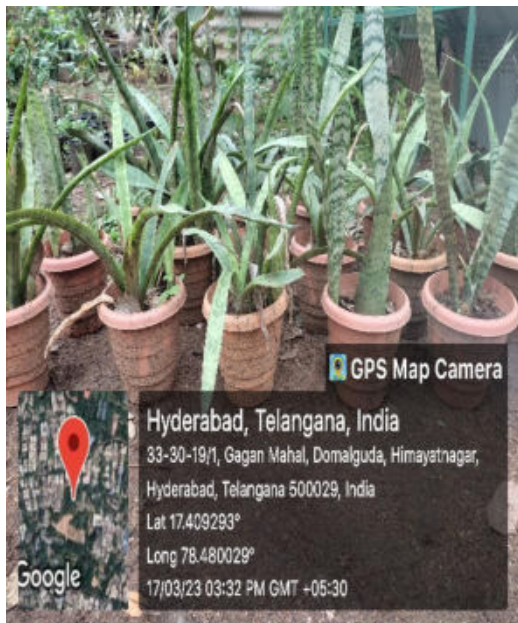

Activity- A.V Nursery Upgradation Training - Workshop

Date- 17.03.2023 & 18.03.2023

Name of organizing Department: Botany,

No.of Participants: 20

Activity/Program Details/ Outcomes: The Department of Botany initiated to establish a nursery of medicinal plants on 02/11/2020. We Upgraded AV Nursery with various types of Medicinal plants and ornamental plants during the 2022-23 Academic year. There is a growing demand on the use of herbal remedies for common ailments. We want to take it further by selling the saplings to the public and by providing consultancy services to the community on herbal remedies. We also distribute saplings regularly to different programs organized in the college regularly.

Department of Botany
Activity Report - 2022-23
“Terrace Gardening -Training Programme”

Activity-Terrace Gardening -Training Programme

Date- 17.07.2023

Name of organizing Department: Botany,

No. of Participants: 30

Duration : 4 ½ Months

Activity/Program Details/ Outcomes: Students reestablished Terrace Garden as a project to demonstrate the urban farming method in a sustainable way. Students used the compost from our vermicompost pit. Students used Grow bags and Bottles for cultivation, especially the leafy vegetables.

Students have taken up this project to have hands-on experience of organic cultivation of vegetables. Through this project students were able to learn the method of composting the bio-waste and how to grow our own vegetables in a limited space & resources.
