17. World Water Day Competitions : Apr 2, 2016

Report:

World Water Day is an international observance and an opportunity to learn more about water related issues, be

inspired to tell others and take action to make a difference. Today, almost half of the world's workers - 1.5 billion people - work in water related sectors and nearly all jobs depend on water and those that ensure its safe delivery. Yet the millions of people who work in water are often not recognized or protected by basic labour rights. The theme in 2016 — water and jobs — focused on how enough quantity and quality of water can change workers' lives and livelihoods - and even transform societies and economies.

Ms. Taruna Shah coordinated **The World Water Day** activities/competitions like Essay Writing, Skit, Rangoli & Poster Presentation on **April 2nd, 2016** to create awareness about the conservation of water.
